TURNING OVER A NEW LEAF IN JIMBARAN

The Leaf Jimbaran is an exciting new luxury villa compound scheduled to launch in August 2015 in Bali's beautiful Jimbaran. Spearheaded by the Nirmala Hotel Management (NHM) group, the boutique Leaf Jimbaran consists of 40 elegantly decorated villas and suites infused with contemporary flourishes. Accommodations consist of 34 one-bedroom villas (Spearmint), 5 two-bedroom villas (Sage) and 1 three-bedroom villa (Rosemary) ideal for families or friends traveling together. All boast private swimming pools and waterfalls, plus fully equipped kitchens and pantries. Ten Leaf Suites are also available.

Designed as an open space to be in harmony with the surrounding nature and seaside, this unique private retreat offers a distinctly personal touch with an unparalleled wellness and healthy lifestyle concept. The Leaf logo depicts hope, renewal and revival and the accommodations are named after therapeutic herbs, such as sage and rosemary, to hint at the overall philosophy of well-being. Guests can partake in the services of personal trainers and health consultants, bespoke pillow menus, in-villa fitness equipment and complimentary rejuvenation and relaxation activities such as yoga, meditation and Tai Chi.

As an important part of its healthy lifestyle concept, The Leaf Jimbaran will focus on nutritious, health-giving Asian cuisine in a fine-dining setting – introducing such F&B venues as Sattvic, Jimbaran's latest sophisticated dining experience. Healthy vitalizing menus

have all been exclusively created by a celebrity chef, award-winning culinary author and well-known healthy eating expert, Daniel Green, appointed as The Leaf Jimbaran's Chef Consultant. "It's such a great honour to work with The Leaf Jimbaran. I was excited that I had free rein to design the food that I know tastes good and makes you feel good. The menu design concept here is unique; I don't believe another hotel has taken on 'healthy' the way The Leaf Jimbaran has," enthused Green. This luxurious hideaway additionally offers excellent in-house facilities that include the Thyme Spa, the Bee Fun Kids Club and complimentary access to a private facility on Jimbaran Bay beach. A heap of in-house activities, from Rainy Days facilities to Guest HOW-TO Programmes, are available, while premium personalized services cover butlers, in-house chefs and professional babysitters. Whether it's for a couple's getaway or a family retreat, The Leaf Jimbaran promises a perfect balance of luxury and well-being. www.theleafjimbaran.com
