

## THE LEAF JIMBARAN

Opened in October on the stunning coastline of Jimbaran Bay, The Leaf Jimbaran is not only one of the most recent luxury villa resorts to open in Jimbaran, but the area's first healthy lifestyle retreat promises an unparalleled wellness experience you won't soon forget.

Soaking up an expanse of greenery, The Leaf Jimbaran is a luxury villa resort that truly makes the most of its surroundings, specifically designed to work in harmony with the natural Balinese horizon. Its 40 spacious private pool villas and 10 deluxe rooms not only embrace the tranquility of Jimbaran's quiet bay on one of Bali's most sophisticated and natural coastlines, they also offer a luxurious five-star retreat for unparalleled wellness.

It is often rare to see such luxury merge with raw nature so seamlessly, and yet The Leaf Jimbaran has managed to do exactly that and done so with style. Achieving a unique balance of opulence and holistic living, The Leaf Jimbaran effortlessly combines the necessities of comfort and class, with a milieu of Mother Nature.

Each of the villas is spacious and bright, in line with the modern standards for swanky Bali

yet lavish, shaded in blues, greens and against brilliant palates of bright white. With private pools, their own waterfalls, verandas, en-suites and fully stocked, the villas are both familiar and tranquil, matching the expanse of Jimbaran's bay.

But the key concept of these all-embellished villas is to boost the experience of living for each guest, tapping into the

... tapas and premium cocktails alongside scenic Jimbaran Bay views and beautifully moonlit nights. The lounge's talented concoctionists celebrate local, organic produce combined with the best international ingredients. Shaded by palms, this lofty terrace exemplifies the underlying theme of The Leaf Jimbaran: style and transparency.

To wrap up the full wellness package, the renowned Thyme Spa, featuring organic anti-ageing skincare products by Evidens De Beaute from Tokyo, Japan, rounds off the rejuvenation process. The spa's silent air-conditioned treatment rooms and reflexology area are peacefully set amidst a tropical garden complete with a warm bubbling Jacuzzi and romantic open air tropical rain shower, so it's as if bathing with nature itself.

This focus of The Leaf Jimbaran – on personal

**Favourite Feature** | The Leaf Jimbaran lovingly grows its own organic garden, where the chefs can pick fresh herbs and vegetables to make their tasty salads, soups, sauces and stews.

health and the benefits of raw nature – truly celebrates the best that Bali has to offer. Every aspect of The Leaf Jimbaran embodies this harmonic duality, enriching both, without sacrificing a drop of either.
